Configuring the ePay.bg merchant account

In order to receive payments via Wirecard the following setup is required in your ePay.bg account:

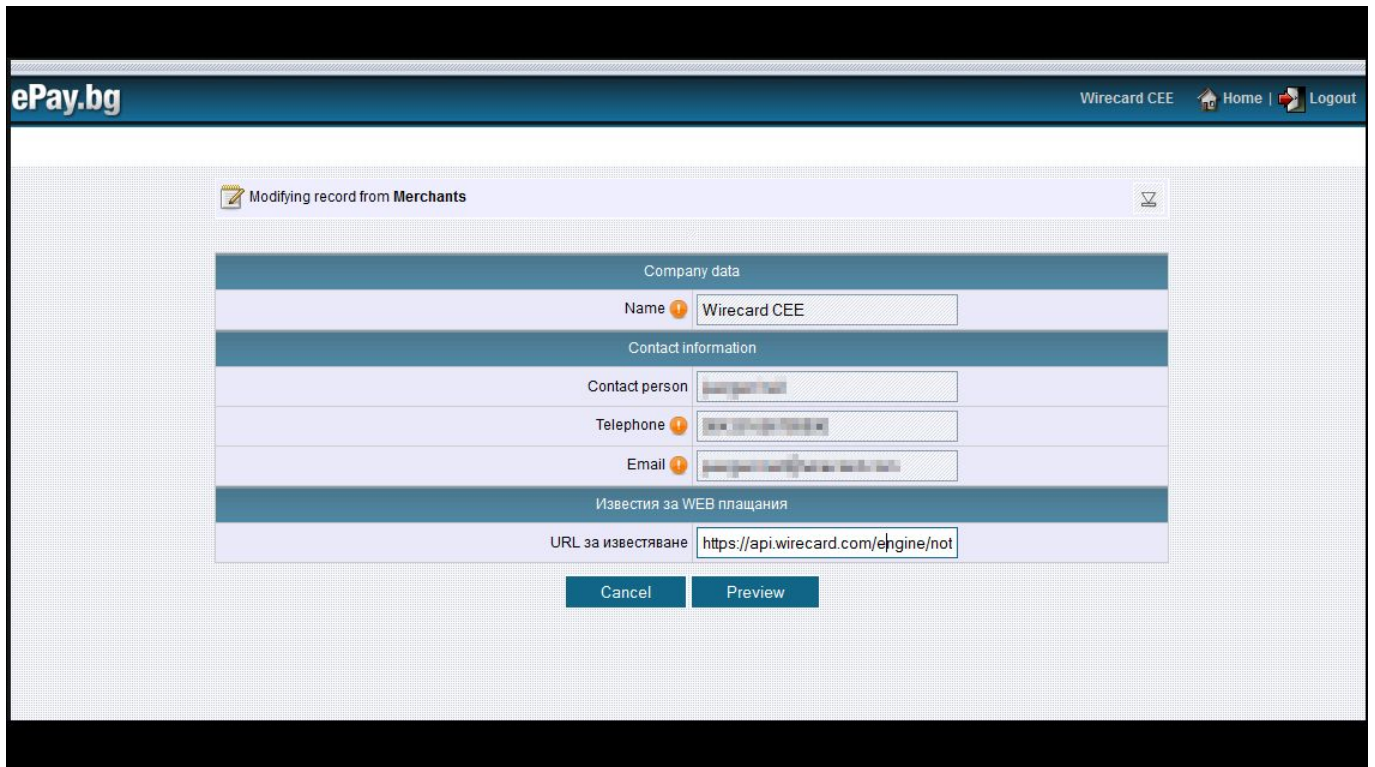

Step 1

- Log in as merchant
- Click merchant data details link “Персонални данни”

Step 2

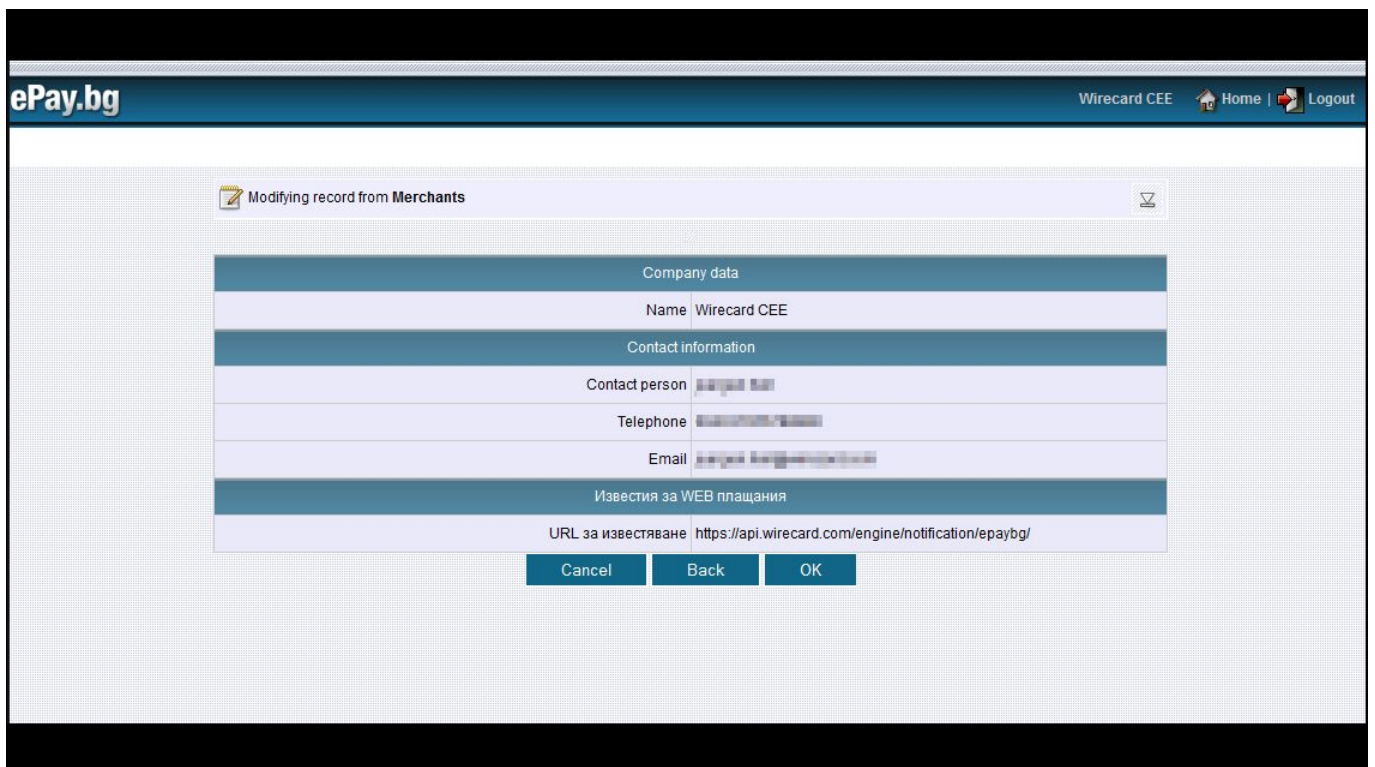

- Click the link in the field “Trade data”

- Click “Preview”

Step 5

- To save the changes, click “OK”

Step 6

To activate ePay .bg for your online shop, Wirecard needs the following information:

1. Customer number

2. Secret key

Please refer to the screen displayed in step 2 which shows the Customer number and the Secret key.

Please forward these data by e-mail to our Support.
