GitHub provides the possibility to **get notifications on plugin updates**. If you want to be notified by email, select “watching” on the GitHub notification status page.

After updating or installing the plugin, **purge the cache** of your Shopware installation a second time. Select “Configuration”, click “Caches / performance”, select the “Cache” tab and click “Refresh”.

Be careful after installing/updating the plugin from the GitHub master branch. Your Shopware installation will notify you about an upgrade at the Shopware store. **This upgrade will revert the plugin to the latest version on the Shopware store.**

Do **not** install the plugin from **two sources** at the same time.
