PrestaShop

IMPORTANT INFORMATION

You are visiting a shop extension which will become obsolete in the near future. It has been replaced by a new one with new features and enhanced functionality.

Please use our new shop extension available on prestashop.wirecard.com, which will be maintained, updated and supported on a regular basis.

If you have any questions, please contact shop-systems-support@wirecard.com

Please have a look at our General information regarding Wirecard Shop Plugins for an overview and introduction to the use of our plugins within your shop system.

For an **overview** of the shop system visit our article at wirecard.at.

Please note that the parameter `paymentType` is used to define the value of the payment method the user selected in your online shop. For a list of all parameter values go to [payment types](#).

Supported back-end operations

Our plugin for PrestaShop and Wirecard Checkout Seamless allows to carry out the following back-end operation directly in your online shop for each order at “Orders” → “Wirecard Payments”:

- `deposit`
- `depositReversal`
- `refund`
- `refundReversal`
- `approveReversal`

Funds can be transferred via the back-end operation **transferFund** by navigating to the configuration page of the module Wirecard Checkout Seamless and selecting “Fund transfer”.

For more information and details go to our general description of all transaction-based operations.
